

Founded on inclusion, fueled by experience, driven by results, inspired by relationships

**We help the companies
changing the world
reimagine and improve how
they operate.**

iTD is a technology consultancy that is focused on putting our clients' needs at the center of what we do and delivering real outcomes quickly. Founded in 2005, our core aim has always been to bring together the best of both worlds, a full-service consultancy that has the world-class expertise of the biggest consulting firms and the agility and dynamism of a specialized firm. Headquartered in Silicon Valley with onshore, nearshore and offshore capability centers we provide seamless global reach. With nearly 20 years of proven results, we deliver innovative solutions that help our clients solve their unique challenges.

SaaS products developed to support our services

Digitized change
management
(ChaMa®)

Integration
as a service
(SmartConX™)

Intelligent
recruiting platform
(Fastr.ai)

Global reach

San Jose, California (HQ) | San Francisco, California | Austin, Texas | Wichita, Kansas | Hyderabad, India
Krakow, Poland | Guadalajara, Mexico | London, UK | Cork, Ireland

Some of the leading brands we work with

As a woman- and minority-owned business, we are focused on delivering a unique perspective and approach that attracts a robust and diverse talent pool. We believe this diversity of talent, thinking and perspective leads to better outcomes for our clients and a positive impact in our communities through our focus on giving back initiatives.

Our innovations have garnered dozens of industry awards

- **Stevie Awards** — 25+ time winner
- **Forrester** — Two-time winner & one-time finalist
- **Khoros Kudos Awards** — Five-time winner
- **Globe Awards** — Two-time winner — Disruptor Company of the Year
- **The Golden Bridge Awards** — Gold winner — Tech Innovator of the Year
- **IT World Awards** — Three-time winner

Women

We are committed to giving-back

We are the founding sponsors of GLAM (Girls Leadership Academy Meetup), an international nonprofit devoted to closing the gender gap in STEM and getting more women into senior leadership roles.

We partner with Kodada Institute of Technology & Science for Women to give internships to female engineering students, allowing them to gain realworld experience while getting prepared to enter the workforce.

We leverage opportunities to nominate women leaders for awards to recognize their achievements. We've nominated 20+ winners in the last 15 years!
